Tetal for the month					

The net total circulation of The Washingcon Times (daily) during the month of August was 1,010,886, all copies left over and returned being eliminated. This number, when divided by 27, the number of days of publication, shows the net daily average for August to have been 37,439.

ng August, shows the net Sund for August to have been 34,878.

In each issue of The Times the circulation figures for the previous day are plainly printed at the head of the first page at the left of the date line.

Entered at the PostoRice at Washington, D. C., as second-class matter.

Persons returning to the city may obtain prompt and satisfactory delivery of The Washington Times to their homes or offices by notifying this office either by or telephone. The Times will be delivered at the rate of 30 cents a month or 7 cents a week. Telephone Circulation Department, Main 5260.

JUSTICE HARLAN FOR HEAD OF SUPREME COURT.

The selection of Justice John M. Harlan as Chief Justice of the Supreme Court, if decided upon by President Taft, would bring to the closing years of the veteran jurist's life a peculiarly pleasing distinction. Justice Harlan is the senior member of the Supreme Court, both in age and in service, being seventy-seven years old, and hav- Could a better argument be presenting served as associate justice for the last thirty-three years. Because of the of reason, an answer to it? respect and admiration in which he is held as a man, and because of his answer exists. It is big, and sturdy, record as a jurist, Justice Harlan's and complete. It lives in St. Louis, elevation to Chief Justice would be in New York city, in Philadelphia, in ed by a large number of people in and outside the legal profession.

MORE HIGH-HANDED STREET CAR TACTICS.

The Washington Railway and Electric Company doesn't propose to be led away from the straight and narrow path of selfishness by any such little thing as public sentiment. No indeed! It's still in business for something not exactly akin to health. Witness its new, P-A-Y-E cars. Over the protests of thousands of its patrons, it is installing a type of car that is about as uncomfortable as any which the brain of the car-builder could con-

What the Washington Railway and Electric Company is after is profits. It seemingly needs the money, has the power to get the money, and is going to proceed to collect. Public protest has about as much effect on its managers as an atomizer spray on an Oregon forest fire. Why should they bow to the wishes of the people! They don't have to! It would be absurd for them to consider anything but the economy and convenience of the company. The people have to ride anyway, so what's the odds?

And what is the company's explanation of the discomfort its new cars heap upon the traveling public? Surely, it must have a reason, or, at least, an excuse. Yes, it has, and it is the cutest little reason you ever heard.

The longitudinal seats are necessary on lines where frequent stops are made to let passengers on and off; 'short trip" lines, the company calls the feast. them; lines on which passengers ride but short distances. Cross seats are fine for suburban cars, but they'll never, never, never do for city cars! They cause so much delay to passengers getting on and off that patrons complain of the time consumed in

reaching their destinations! Isn't that cute, though? Doesn't it just naturally convulse one with laughter at its very cunningness? ed? Is there anywhere, in the realm

Be not deceived. There is. The practically every other large city in the country.

In the course of his speech before them and sometimes against them in the statement that of the thirteen cable and Canada and America on the other, ten are kept idle by the "ring" which has been fighting cable reduction. The carrying capacity of those cables, he certain, well-advertised scientist, said, is twelve times greater than their

penny-a-word rate throughout Europe and then take up the question with She will brook no divorce. this country. It was "intolerable" that the cables should be working to only one-twelfth of their capacity, while 120,000,000 people were practically barred from the use of the cables by exorbitant charges.

Years ago Mr. Heaton saw a poor roman in Australia unable to get from the postoffice a letter from her son in England because of the high charges on it. He gave her the money, charges on it. He gave her the money, and there resolved to dedicate his life to the cause of cheaper postage. He has wrought a revolution, and it is to be hoped that he will be equally successful in bringing about a reasonable reduction in cable rates, which are now prohibitive, so far as the average citien is concerned.

It is emphatically denied that the Washington Railway and Electric Company has decided to take a popu people like its new P-A-Y-E cars.

Considering the subsequent neces sity of hiding out, Dr. Cook was surely wise to grab what he could early in the game.

It is barely possible that when the first Cabinet meeting is held it will discovered there's a skeleton at Mr. Bryan's repudiation of Dahl-

Pay of Census Clerks

Will you kindly voice another item of nterest to the census clerks? We have about become reconciled to

the piece price of 30 cents per hundred, and those of us who possess fair health are beginning to make a living galary, are beginning to make a living salary, where he, another agitation arises!

Rumor says that one of two things will shortly occur. Either all punchers are to be placed upon a regular salary basis, or the rate per hundred for piece work will be cut down. It was announced at the outset that if 20 cents per hundred was not satisfactory the rate would be increased.

It was not satisfactory to many, but we did not anticipate that, like our troublesome tariff, its revision would be contrary to all expectation.

As rumor now has it, the maximum salary mentioned will be from \$15\$ to \$25\$ less per month than most of the experienced clerks are now making.

I trust that this is only rumor and nothing more, and that the census clerks may not be deprived of even a portion of their hard-earned compensation. Yours truly,

Night School Needed.

To the Editor of The Washington Times: Having read so much of your valuble aid in different causes, I write to solicit your co-operation in getting a night school for Anacostia children.

night school for Anacostia children. The Board of Education received a petition two years ago from prominent citizens asking for a night school, and promised one for last year. but failed in its promise.

I remember a few months ago a statement in The Times saying therewere several organized bands of bad boys in that district. The bad boys are made up of the uneducated boys whose mothers are widows who depend a great deal on their assistance. The boys were obliged to leave school at an early age. Scene from "Rheingold" Wagner First Waltz (Op. 83)......Durand Galop, "Ride of the Hussars"

leaves learly age.

A night school would also be a good place to spend their evenings, not having a library, reading room, or park nearer than the Capitol, and, of course, car fare must be taken into consideration also.
